

(2) (b) The certificate prescribed in clause (2) above shall be stamped as final discharge in respect of the amount shown therein and the Audit Office in India shall make adjustments accordingly.

(3) If the amount originally paid to the officer in cash is more than the amount certified by him, the difference shall be recovered from him.

(4) If the amount originally paid to the officer in cash is less than the amount certified by him, the officer shall be entitled, if he so elects, to receive a further payment in cash from the individual passenger account contained in an account not exceeding the difference between the amount actually spent by him and the amount originally paid to him, provided that in no case shall the total of the amount paid to him in respect of the fare, passage and the amount paid for his out-of-pocket charges exceed the maximum amount admissible to him under the Passage Regulations in Schedule IV.

(5) In the case of passengers ending at a "port outside Asia," the certificate prescribed in clause (1) above shall be submitted to the High Commissioner, who shall scrutinise it and either endorse the money, if any, in accordance with clause (2) above, shall transmit it, to the Audit Office in India.

In other cases, the certificate shall be submitted to the Audit Office in India who will make the necessary adjustment.

(6) A claim for a further payment in cash, submitted under clause (4) (b) above, shall not be paid except on the authority of the Audit Office in India.

Exception.—The officer shall not be required to submit the certificate prescribed above in respect of a journey between a Mediterranean Port and London, if the amount claimed by him in respect of such journey is £5 or less. In such cases the original payment will be treated as final.

6. (1) Passages by sea or air.—When the officer engages the passage or passages by sea/air, he will present the certificate granted under Regulation 3 (2) above to the steamship/air transport company, and if the cost of any passage engaged by him exceeds the amount retained in the certificate, the difference shall be paid by the officer himself.

(2) If he may receive the officer, after obtaining the certificate but before presenting it to the steamship/air transport company, finds that he does not desire to use it, he shall return it without delay to the Audit Office in India or the High Commissioner, as the case may be.

(3) If the officer, after presenting the certificate to the steamship/air transport company, cancels the passage which he has engaged, he shall at once return the Audit Office in India or the High Commissioner, as the case may be, that he has done so; he shall also take steps to recover the certificate from the steamship/air transport company and return it to the Audit Office in India or the High Commissioner.

(4) If the officer cancels a passage engaged by him, for the cost of which the steamship/air transport company has presented a claim for payment, he shall not give particulars with the company, but also immediately inform the Audit Office in India or the High Commissioner, as the case may be, who will apply to the steamship/air transport company for a refund.

(5) Any amount retained by the officer as a result of cancelling a passage in circumstances where the steamship/air transport company is entitled to claim such forfeiture may be debited to the passage account concerned.

7. Regulations 1 to 6 above do not apply in their entirety to cases in which an officer in India wishes to engage a passage or passages—his family residing outside Asia. In such cases the regulations shall in the first instance be made to the Audit Office in India and shall specify the information desired in Regulation 2 (1) above. The Audit Office shall dispose of the claim in conformity with Regulation 1 (1) (a) and (2) above. In respect of the amount paid to him in cash, the officer shall submit a certificate as prescribed in Regulation 5 above after the journey has been completed by his family. The certificate granted by the Audit Office in India shall be sent by the officer to the High Commissioner with full information as regards the steamer or air line and the route by which it is desired to travel and the class of accommodation reserved. On receipt of the certificate and the information, the High Commissioner

will, on behalf of the officer, arrange with the steamship/air transport company for the required passage.

If the cost of any such passage exceeds the amount certified by the Audit Office in India, the officer must arrange for the payment of the difference to the High Commissioner before the passage is engaged. In cases in which the necessary arrangements have been made by the High Commissioner, he will intimate the fact with full particulars to the officer concerned, as well as to the Audit Office in India. If for any reason the officer, after obtaining the certificate from the Audit Office in India but before forwarding it to the High Commissioner, does not desire to use it, he shall return it without delay to the Audit Office. If, after forwarding the certificate to the High Commissioner, it is found that the passage is not required, or if passages already engaged are cancelled, the officer will be responsible for intimating the fact promptly to the High Commissioner, and for recovering the ticket or tickets to the High Commissioner. He will be similarly responsible for returning promptly to the steamship/air transport company the certificate of a passage already engaged. On receipt of the intimation, the High Commissioner will take steps to obtain a refund from the steamship/air transport company, who, in turn, will also inform the Audit Office in India of the non-utilisation of a certificate presented to him or the cancellation of a passage.

8. If an officer draws for his wife or any of his children the benefit admissible under Regulation 5 of the Regulations in Schedule IV for a return journey, he shall make a declaration as due cause to the Audit Office in India that the second halves of the return tickets have been offered for the passage for which the benefit was claimed. If the second halves of the tickets are sent or offered, the officer shall return them to the Audit Office in India who will take steps to obtain a refund from the steamship/air transport company.

9. In respect of special cases the Governor-General in Council may sanction such modification of the procedure prescribed in these Regulations as he may deem to be necessary.

10. The High Commissioner and the Audit Office in India are subject, as contemplated above, to be guided by these Regulations, a suitable provision being made that the spirit of any of these Regulations is not contravened.

MADEIRA COMMERCE REPORT FOR THE MONTH OF SEPTEMBER 1938.

The summer season which began in the third quarter of 1937, and gathered increasing momentum during the early months of the current year, was arrested in June, since when there has been, on the further side of the Atlantic, a general recovery in the basic position of individual markets has not yet been fully reflected in the price levels. Economic conditions appeared to be favourable for some recovery when the international crisis was still felt acutely; markets in September were under the influence of the international political situation which had an immediate effect on the ports. Now that war has been started and a general of decline in business activity may be seen, followed by a gradual industrial advance when the measures, or progress increases in magnitude and speed. As a result of the intensification of armaments, some degree of inflation may possibly take place although the probabilities are that it will not be quick in coming. It is evident that some industrial recovery is taking place in the United States although the position in the United Kingdom is much more uncertain. Subject to the amelioration of the international situation there seems reason to hope that some of the combined stage business may meet some of that of general recovery. The increased expansion in American activity is by no means of opinion that accelerated business activity may be limited for in the autumn and that trade will be better in 1939. Prices of most of the commodities in which markets in September were fairly steady in September during the international political crisis, and there were few outstanding developments affecting individual markets. New York and Bombay prices remained defined, though there was an advance in New York during the last few days of the month as a result of no improvement in the international situation. The business proving in financial was very restricted, neither Indian sales nor exports showing any interest, and prices gradually recovered from about Rs. 145 to Rs. 146 per cwt. of 70 lb. The Comptroller's note in the market for Canebe and a small but steady business remained, prices for best quality canebe, from about Rs. 150 to Rs. 155 per cwt. Prices of Canebe and Canebe were maintained in accordance with the general trend, but quotations were more or less seasonal. September was so far the best month of the year for Indian and stock, stocks were liquidated and most of the individual factors retained steady and more profitable in bulk for the approaching December season. There was a good demand for treated hides during the first part of September and prices remained very steady. However, in tanned hide and tanned sheep skins was restricted though prices, underlying little fluctuations. Quotations for goat/sheep remained at a level of restricted demand. The goat/sheep and the market was steady in the whole. The pepper market opened steady as a result of Bombay and Ceylon demand, but weakened subsequently. The Ceylon pepper market remained mainly steady in the absence of demand. The Canebe and goat/sheep market was more or less steady with only minor fluctuations in prices, while prices of Canebe and goat/sheep remained steady. Quotations for Canebe and goat/sheep remained a little owing to support from Bombay and Karachi. The sugar market was very steady during the month and prices gradually recovered. The demand during the month for locally manufactured sugar and elsewhere was good. Confidence in the rubber market was increased by the prevailing conditions with trade reports reduced and speculative buying. The rubber market for the month was liquidated with support from the end was restricted to 45 per cent of the standard maximum to the end of the year. Trade reports from the United States continued to be a satisfactory feature of the commodity market and prospects of increasing demand over the next few months are viewed favourably.

COMMODITIES.

Owing to late arrivals, prices of Railway cane were dropped a little during the month, but showed steady. Prices of Canebe and restricted arrivals of North Indian cane during the earlier part of the month. Local dealers showed some disposition to purchase large quantities of every variety in price anticipating a further advance in view of a possible shortage of dry cane stocks in Northern India and the British Embassy at the Comptroller's market. FRUIT.

The Madras market was very steady during September and prices gradually increased by Rs. 1-0-0 to Rs. 1-6-0 per cwt. owing to late arrivals in the local market and restricted arrivals of North Indian cane during the earlier part of the month. Local dealers showed some disposition to purchase large quantities of every variety in price anticipating a further advance in view of a possible shortage of dry cane stocks in Northern India and the British Embassy at the Comptroller's market. TANNED HIDES AND SKINS.

Tanned hides.—There was a good demand for tanned hides during the first part of the month and prices remained very steady. As the European crisis deepened, however, the uncertainty with regard to freight, and war risk, should be regarded as a factor, and the market for tanned hides was somewhat restricted. Madras prices at the end of September were on the following basis:—

Prices 1/2 lb. 1/2 lb. d. Prices 1/2 lb. and Cane 1/2 lb. d.	
--	--

Tanned Goat Skins.—There was a small, but sustained demand for tanned goat skins and prices remained steady during the month. However, prices were not so much in demand as in, except in certain lines of very good assortment. The temporary improvement registered in August was completely obliterated by the international political crisis and the market was somewhat restricted, apart from the delivery of specially limited orders, for at least two weeks of the month. Further the extra war risk insurance restricted, however, but fortunately, stocks were on the market in very small quantities and there was no accumulation. Suppliers could have taken orders for leather, but with no demand in the market.

Tanned Sheep Skins.—The same uncertain conditions ruled in the tanned sheep skins market, and the demand was slow but steady. Towards the end of the month it was felt that had orders been available, some skin might have been secured at slightly lower prices.

Shipments from Madras during September were as follows:—
